

eParking

Siulaselkä and Kermikkä:
Apartment-specific car heating and EV charging.

Ruskarinne:
2 EV charging spaces located in the left corner of the parking area.

CAR HEATING (FREE OF CHARGE)

- Open the cover. It is not locked.
- Use the arrow buttons on the timer to select the left or right socket, depending on which one you want to set.
- Using the same arrow buttons, set the desired **DEPARTURE TIME**. Use the left arrow to set the hours and the right arrow to set the minutes. The timer uses a 24-hour clock.
- **Please note:** Heating starts approximately 2 hours before the selected departure time.
- Heating can also be scheduled remotely using the eParking app.

ELECTRIC VEHICLE CHARGING (CHARGEABLE)

To use EV charging, you need the **eParking app**, available from Google Play and the App Store.

Each charging post has a QR code sticker.

1. Connect your vehicle to the charging post using the charging cable.
2. Open the eParking app and select **Scan QR Code** at the bottom of the screen. Scan the QR code on the charging post your vehicle is connected to and select **Start Charging**.
3. **Please note:** A valid payment card must be registered in the app.
