## Hätätilanteessa toimiminen

Kiireellisissä / hätätilanteissa soittakaa numeroon **112**.

### Huoneiston tunnistetiedot

**Huoneiston nimi** Kiinteistö Oy Riekonraito  
**Sijainti** Saariselkä  
**Osoite** Raitopolku 2 B, 99830 Saariselkä

### Turvallisuusohjeet

Välitöntä poliisin apua tarvittaessa poliisi hälytetään paikalle soittamalla yleiseen hätänumeroon **112**.

### Hätäpuhelua soitettaessa:

- kertokaa ensin mitä on tapahtunut ja missä
- vastatkaa esitettyihin kysymyksiin
- toimikaa annettujen ohjeiden mukaisesti ja lopettakaa puhelu vasta, kun saatte luvan.

### Mikäli havaitsette tulipalon, hälyttääkää puhelimella numeroon **112**.

Palovaroittimen soidessa poistukaa käyttäen lähintä turvallista poistumistietä. Sulkeaa ovi perässänne. Kokoontukaa huoneiston pääoven edustalle riittävän etäälle, että ette estä pelastustoimia.

Älkää hypätkö ikkunasta, ellei teitä erikseen siihen kehoteta pelastushenkilöstön tai henkilökunnan toimesta.

Ilmaiskaa olinpaikkanne ja avun tarpeenne esim. huutamalla, heiluttamalla tai valoja vilkuttamalla.

Mikäli huomaatte epäkohtia turvallisuusjärjestelyissä, ilmoittakaa niistä heti vastaanottoon tai isännöintiin.

### Onnettomuus tai sairauskohtaus, hälyttääkää puhelimella numeroon **112**

- selvittääkää mitä on tapahtunut
- pelastakaa hengenvaarassa olevat, estääkää lisäonnettomuudet.
- antakaa hätäensiapu:
  - turvatkaa hengitys ja verenkierro
  - ehkäiskää sokki ja tyrehdyttääkää verenvuoto

### Yleinen hälytysmerkki

Yleinen hälytysmerkki on yhtäjaksoisesti nouseva ja laskeva sireeniääni, torvella tai pillillä puhallettuja lyhyitä äänimerkkejä tai viranomaisen kuuluttama hälytys.

Tasainen, yhtämittainen sireeniääni on palohälytys, joka on tarkoitettu vain palokunnalle.

Yleinen hälytysmerkki; nouseva ja laskeva sireeniääni

Palohälytys; tasainen yhtämittainen

- siirtykää sisälle ja pysykää siellä
- sulkeaa ovet, ikkunat, tuuletusaukot ja ilmastointilaitteet
- avatkaa radio ja odottakaa ohjeita
- välttääkää puhelimen käytöä, etteivät linja tukkeudu
- älkää poistuko alueelta ilman viranomaisten kehotusta, ettette joudu vaaraan matkalla

# Emergency Situations

**In case of emergency, call 112.**

## Apartment identification information

<b>Apartment name</b>	Kiinteistö Oy Riekonraito
<b>Location</b>	Saariselkä
<b>Address</b>	Raitopolku 2 B, 99830 Saariselkä

## Safety instructions

If you are in immediate need of police assistance, call the general emergency number: **112**.

### Making an emergency call

- First explain what has happened and where.
- Answer the questions you are asked.
- Act according to the instructions given and end the call only when you are given permission to do so.

### In the event of fire, call the **112** emergency number.

If the indoor fire alarm rings, leave the building using the nearest, safest exit. Close the door behind you. Gather together in front of the apartment's main door far enough away so as not to obstruct rescue efforts. Do not jump from a window unless you are directed to do so by the rescue staff or other staff. Indicate your whereabouts and need for help by shouting, waving your arms or blinking your lights, for example.

In the event you notice defects in the security arrangements, notify the reception or superintendent immediately.

### Accident or attack of illness: call the **112** emergency number

- Explain what has happened.
- Help those in immediate danger and try to prevent additional accidents.
- Administer first-aid:
  - secure breathing and blood circulation, and
  - prevent shock and stop excessive bleeding.

## General warning signal

The sound of the general warning signal is a constant ascending and descending sound of a siren, a horn or whistle blown at short intervals, or a warning signal given by authorities. An even, constant sound of a siren indicates a fire alarm, which is intended for the fire department only.

General warning signal: a constant ascending  
constant sound of a siren

Fire alarm: an even,

and descending sound of a siren

- Go inside and remain there.
- Close all doors, windows and ventilation openings, and turn the ventilation devices off.
- Turn on the radio and wait for instructions.
- Avoid using the telephone to keep the lines free.
- Do not leave the grounds without the authorities' permission to avoid danger.

# **Regulations**

## **1. Smoking**

Smoking in the rooms is strictly forbidden. If someone has smoked in the apartment, the real estate company has the right to charge for the use of the ozonator to clean the apartment. Throwing cigarette stubs on the ground is also strictly forbidden.

## **2. Outdoor candles and campfires**

Burning outdoor candles on the terraces and making campfires on the grounds is forbidden.

## **3. Pets**

Guests are obligated to inform the holiday center if they intend to bring a pet(s) to the holiday apartment, preferably when they make their reservation or at the latest when they check in. If a guest fails to inform the holiday center about a pet, we reserve the right to charge the guest the pet surcharge x 3. The surcharge is according to the current price and it is collected at the reception. Pets must be kept on a leash in the grounds area. Keeping pets in the sleeping areas and on the loft is forbidden.

## **4. Parking**

A maximum of two vehicles may be parked in the yard at a time. Guests may park in the public parking lot.

A plug for the engine-block heater is located on the outdoor wall of the apartment. The plug should not be used for campers, RV's, electric- or hybrid vehicles.

## **5. Waste management**

Waste containers for mixed waste are located near the reception. Recyclable bottles can be returned to the store, taken to the bottle recycling containers on the grounds, or left in the apartment. Glass, plastic and metal can be taken to the recycling containers located opposite the Kuukkeli shopping center on the other side of the street. Throwing recyclable material in the waste containers in the apartment or grounds area is forbidden.

## **6. Living**

Activities that may disturb the night's rest of others should be avoided between 11:00 pm and 8:00 am.

## **7. Everyman's right**

Regulations pertaining to hunting and fishing must be observed.

## **8. Forest animals**

Feeding forest animals is forbidden because food lures them indoors, which causes damage to the apartment.

## **9. Damage to the apartment**

Notify the reception of broken dishes, appliances or other defects in the apartment.

## **10. Checking out of the apartment**

To help the work of the cleaning staff, please do the following before you leave:

- Pile the used bed linens and towels on the floor of the foyer.
- Move the furniture back into place if you have moved it.
- Make sure the fan on the range hood has been switched off.
- Make sure the appliances have been turned off and the windows are closed.
- Take the trash to the trash bins and the empty bottles and newspapers/magazines to their respective recycling bins (see number 5).
- Empty the dishwasher and put the dishes in the cupboards.
- Return the key to the reception. If you lose your key, we charge €100–€150 to change the locks on the doors.

## Takan käyttöohjeet

1. Avatkaa pelti ja samalla käynnistää huippuimuri, huippuimurin on hyvä antaa olla päällä koko ajan, kun takassa on tuli.
2. Tarkistakaa, ettei liesituuletin ole päällä.
3. Pitääkää tarvittaessa ikkunaluukku auki, kun sytytätte tulen takkaan, mikäli savu pyrkii sisään.
4. Sytyttääkää tuli pienellä puumäärällä ja lisätkää puita sitten vähitellen, ettei takka savuta huoneistoon.  
Muutama puu kerrallaan riittää.
5. Tyhjennä tuhkat sekajäteastian vieressä olevaan tuhka-astiaan (ei kuumaa tuhkaa)

## Lämmitysohjeet

Huoneisto on varustettu suoralla sähkölämmityksellä (lattialämmitys, sähköpatteri). Pesuhuoneen lattialämmitystä ohjataan pesuhuoneen oven vieressä olevalla termostaattilla.

Sähköpatterit sijaitsevat joka huoneessa ikkunan alla. Pattereissa on virtakytkin oikeassa päädyssä, jos patteri on kylmä, tarkista kytkimen asento. Patterien termostaatti tulisi olla säädettynä + 22 °C - lämpötilaan.

## Termostaattien säätäminen pois päältä on kiellettyä.

Kiukaan päällä ollessa, huoneiston lämmitys katkeaa kiukaan lämpiämisen ajaksi. Mikäli lämpö ei kytkeydy takaisin kiukaan sammuttua, tarkastakaa, onko kiukaan aikakellokytkin palautunut 0-asentoon. Tarvittaessa palauttakaa aikakellon käsin 0-asentoon. Sähköpäätaulusta voi valita lattialämmityksen joko yöllä tai jatkuvasti lämpiväksi. Kytkin saa kuitenkin olla jatkuva-asennossa aina. Huoltoyhtiö huolehtii lämmityksen muutoksista.

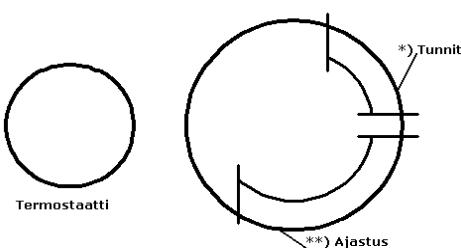

## Saunan käyttöohjeet

Laittakaa kiuas päälle noin puoli tuntia ennen saunaan menoaa.

1. Valitkaa termostaatista haluttu lämpötila (lämpötilan säätö). Suositus +60°C – +80°C.
2. Säätääkää numeroasteikosta, kuinka monta tuntia sauna lämpiää \*) (numerot ovat tunteja)
3. Samassa asteikossa on myös ajastin, josta voi valita tuntimäärän, jonka jälkeen kiuas alkaa lämmetä \*\*)
4. Saunottaessa laittakaa katossa oleva poistoventtiili pienemmälle

Termostaatti katkaisee automaattisesti virran, kun haluttu aika menee umpeen. Tarkistakaa kuitenkin aina, että virta on katkennut.

Kun kiuas on säädetty kuumenemaan, lämpö muualla huoneistossa katkeaa automaattisesti.

**Pyykkien yms. kuivaus ja tavaroiden säilyttäminen saunatiloissa on kielletty**

**TV-kanavat:**

Televisio -kanavat on viritettä kohdalleen, joten kanavia vaihdetaan ainoastaan kaukosäätimestä. Tv:n käyttöohjeet ovat erillisenä liitteenä huoneistossa.

**Internet:**

Jokaisessa huoneistossa on Wifi -yhteys. Huoneistoissa on talokohtainen lähetin (jokaisessa huoneistoissa ei ole omaa lähetintä). Käyttäjän tulee etsiä laitteellaan voimakkaimmalla signaalilla näkyvä yhteys käyttöönsä. Mikäli yhteyttä ei löydy, ota yhteyttä vastaanottoon/huoltoon.

## Instructions for Safety and Using the Holiday Apartment

**Right to use the timeshare, checking in and checking out**

The right to use the apartment begins on Friday at 5:00 pm and ends the following Friday at 11:00 am. These times are binding to ensure there is enough time to clean and maintenance the apartment for the next guest.

**Key Service and maintenance**

Holiday Club Saariselän Kylpylä is responsible for the Key Service and maintenance. To receive the key, the person indicated on the reservation list must sign for it.

**Cleaning**

The apartments are cleaned on a weekly basis on Fridays between 11:00 am and 5:00 pm and whenever new guests arrive. Guests are responsible for cleaning the apartment during their holiday, or they can arrange to have the apartment cleaned for them for a separate fee. If the apartment has been left especially messy, then we will charge a separate fee for the extra cleaning. Possible complaints regarding the cleanliness of the apartment should be reported to the cleaning staff or superintendent immediately.

**Fireplace wood**

Wood for the fireplace is located in the apartment's storage. The maintenance fee includes one bag of wood.

**Extra furnishings**

Cribs and high-chairs are available from the cleaners or Key Service.

**Snow removal**

Saariselkä Oy is responsible for removing snow in the grounds area. During your stay, you may want to remove the snow from the stairs and terrace of your apartment.

**Ventilation and range hood**

The ventilation must always be kept at level 1; the amount of power can be adjusted as needed. The left-hand switch is a 4-step control for adjusting the amount of air in the apartment. The second switch is used to turn the ventilation on and off. The third switch is for adjusting the amount of air coming from the hood, and the right-hand switch is for turning on the light. If there are no switches, the apartment has natural ventilation.

**Heating**

The apartments have electric heating. It should be noted that part of the heating in the apartment switches off when the sauna stove is on. The floor heating in the shower room remains on.

**Apartment furnishings**

Please notify the Key Service staff of any dishes that may have been broken during your stay. Also, please write what dishes/objects were broken on a piece of paper and leave it on the table to enable our staff to replace the items before the next guests arrive. All lost/broken items will be billed to

you if they have not been reported. Possible defects should be immediately reported to the reception.

### **Instructions for using appliances**

The instructions for using the appliances in the apartment are in one of the kitchen cupboards. Read the instructions as needed to avoid breaking the equipment due to faulty use. An instruction booklet is also available at the maintenance department or reception.

### **Fire safety**

Fire safety regulations prohibit the making of open fires on the grounds. Burning outdoor candles and other types of candles on the terraces and steps is strictly forbidden.  
Make sure you know where the exits are located in case of fire or other danger. Also, make sure you know where the first-aid extinguishing equipment is (extinguisher and smothering blanket) and that you know how to use them.

### **Complaints concerning your holiday apartment**

We kindly ask that you notify the reception or superintendent immediately of any defects or malfunctions in your holiday apartment.

### **Fireplace**

1. Open the damper switch on the ventilation system at the same time. Keep ventilation system on during the time the fire is burning.
2. Make sure the range hood is not on.
3. If necessary, open a window if smoke comes into the room while you light the fireplace.
4. Light the fire using a small amount of wood, and then add more wood little by little to avoid smoke from entering the room. A few pieces of wood at a time are enough.
5. Empty the cooled ashes into the ashbin (not hot ashes).

### **Instructions for heating**

The apartment is heated by direct electric heating (floor heating and electric radiators). The thermostat by the door of the shower room is used for adjusting the temperature of the floor heating. The electric radiators are under the window in every room. The radiators have an on-off switch on their right side. If the radiator is cold, check the position of the switch. The radiators' thermostat should be adjusted to + 22° C.

### **Turning the thermostats off is forbidden.**

The heating in the apartment will turn off while the sauna stove is warming up. If the heating does not turn back on after the stove turns off, make sure the timer has returned to 0. If not, turn the timer to the 0 position by hand. You can choose to have the floor heating on at night only or all the time. The switch is on the electrical control panel. The switch can be left in the 'constant' position, however. The maintenance company takes care of changes in the heating.

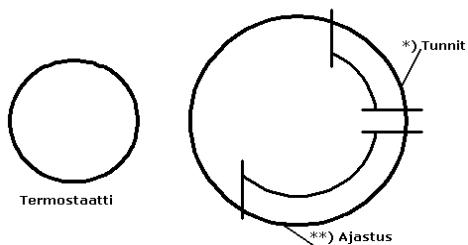

### **Sauna**

Turn the sauna stove on half an hour before you intend to go to the sauna.

1. Choose the desired temperature (temperature control). Recommendation: +60° C - +80° C.
2. Turn the knob to the number of hours you wish to have the sauna warm \*) (the numbers mean hours).
3. The same knob also has a timer that you can set so the sauna will begin heating up at a certain time. \*\*)
4. When in sauna adjust the opening of the ceiling vent smaller.

The thermostat will automatically turn the sauna stove off when the set time is up. However, always check to make sure the stove has turned off.

When the sauna stove has been turned on, the heating in the rest of the apartment will automatically turn off.

### **Drying clothes and keeping goods in the sauna is forbidden.**

#### **TV channels**

The channels for the television have been tuned to the correct stations, so you only need the remote control to change channels. The television's instructions for use are in the apartment.

#### **Internet**

There is a free Wi-Fi in the apartment. Each building has its own Internet transmitter; there is not one in each lodge. Guests should look for the strongest signal with their device and use that one. If you cannot find a signal, contact the Reception or Maintenance.
